

DIRECTORY2019

Uganda Water and Sanitation Network

CIVIL SOCIETY ORGANIZATIONS IN THE WATER AND SANITATION SUB-SECTOR

FOREWORD

It is my pleasure to present the UWASNET Directory 2019. This Directory documents Civil Society Organizations (CSOs) that are actively operating in the Water and Sanitation Sub-Sector across Uganda. This information will support the efforts in identifying and coordinating CSOs in the country, for efficient and equitable WASH Service Delivery.

The provided data analysis comprises of information from 197 physically visited CSOs during this verification/mapping exercise and gives an overview of the current number and categories of CSOs operating in each of the ten UWASNET regions. Further, profiles of 198* CSOs are included in this Directory to serve as a reference point for sector stakeholders and interested parties. To ensure that timely and up-to date information is provided, an online Directory featured on the UWASNET website will continue to capture new or CSOs that were not visited during this exercise.

It is our sincere hope that this Directory will be resourceful to the different sector stakeholders to inform your planning and coordination as we strive to ensure that No Ugandan Is Left Behind in terms of accessing Safe Water and Sanitation, and a secure environment.

We greatly appreciate the support from our partners for their continued support and commitment to the network and sector. For this recently conducted exercise and the development of this Directory, special appreciation goes to the technical and financial support of Deutsche Gesellschaft für Internationale Zusammenarbeit (GIZ) GmbH Uganda, namely the Civil Society in Uganda Support Programme (CUSP), which is part of GIZ Uganda's Strengthening Governance and Civil Society Programme (GCSP), funded by the European Union and the German Government. In addition, appreciations go to all UWASNET Regional Coordinators, Staff and District Officials who participated in this exercise.

Sincerely,

Yunia Yiga Musaazi, Executive Director UWASNET

* 1 additional CSO submitted its details after the data analysis process had been completed. Therefore it appears in the CSO listing but does not form part of the data analysis.

ABOUT UWASNET

Uganda Water and Sanitation Network (UWASNET) was founded in 2000 as the national umbrella organization for all Non-Governmental Organizations (NGOs) in the Uganda Water and Sanitation sub-sector following a sector reform that brought together Government, Development Partners and CSOs to develop and contribute to one development plan.

UWASNET'S VISION

“All people accessing improved and sustainable water resources, sanitation, hygiene and the environment”.

UWASNET works through the Sector Wide Approach (SWAp) to contribute to the National Development Plan of poverty alleviation through universal access to sustainable, safe water and improved standards of sanitation and hygiene, through partnership with Government under Ministry of Water and Environment including the Line Ministries namely Ministry of Health, Ministry of Education and Sports, Sector Development Partners, Private Sector, Academia and CSOs in Uganda.

UWASNET's mandate is to coordinate all CSOs in the sector and strengthen their contribution by facilitating learning and sharing, documentation of their work, promoting partnerships and collaborations with other sector stakeholders, including Government, Development Partners and the Private Sector. It follows its three Strategic Objectives anchored in its Strategic Plan 2017-2022:

STRATEGIC OBJECTIVE 1

Coordinated and Amplified CSOs Voice to Influence Policy and Practice within the Water and Sanitation Sector

STRATEGIC OBJECTIVE 2

Enhanced Learning and Strategic Synergies around Key Sector Issues

STRATEGIC OBJECTIVE 3

Strengthened Institutional Capacity of UWASNET to Effectively, Efficiently and Sustainably Deliver on its Mandate

In addition, UWASNET coordinates and represents the voices of CSOs and communities at all the critical decision-making platforms in the sector through its six Thematic Working Groups (TWGs) that are directly linked to the Sector Working Groups in order to influence pro poor policies and practice as well as strengthening CSOs participation in sector decision making processes.

THE SIX UWASNET TWGS ARE:

- i. **Good Governance**
- ii. **IWRM, Environment and Climate Change**
- iii. **Sanitation and Hygiene**
- iv. **Urban Water and Sanitation**
- v. **WASH Technologies**
- vi. **Women, Children and other Vulnerable Groups.**

All working groups have a leadership comprising of a Chair, Vice Chair and Secretary.

UWASNET has a clear and established governance structure comprising of an Annual General Assembly of members, a Board of Directors supported by a Secretariat and Regional Coordinators who coordinate members in the 10 UWASNET regions.

OVERVIEW OF THE VERIFICATION/MAPPING EXERCISE

OBJECTIVE

The exercise had several objectives, which are as follows:

- a) To have an overview of active CSOs in the Water and Sanitation Sub-sector in Uganda
- b) To update the UWASNET Membership Database

To improve coordination and engagement between the network and its members.

METHODOLOGY

CSOs were identified in each of the 10 UWASNET regions through the Secretariat's data base as well as through close collaboration with the Regional Coordinators and District Water Officers (DWOs). During this exercise, UWASNET members and non-members were visited to get an overview of active CSOs in the sector. These were mobilized by the Regional Coordinators in close cooperation with the Secretariat.

Between March 2019 and July 2019, physical visits to the main offices/headquarters of the CSOs were made by the UWASNET team comprising of UWASNET staff member(s) and one Regional Coordinator representative. Courtesy visits to the DWO in each District were made to verify the CSOs as well as to interact with the respective DWOs on their engagement with CSOs in their Districts. Information was collected through a mobile questionnaire on a smartphone-based mobile field survey application, AkvoFLOW. The questionnaire focused on general information of the CSO (refer to chapter 6) to provide besides official contact details also on thematic and geographic area of operation.

CSO LISTINGS 62

UGANDA WASH ALLIANCE SUB-PROGRAMME – PROGRESS 2018-2019 261

KEY

Throughout this document a colour key is used to denote the different CSO categories, as follows:

NGO		Blue represents a Local/National NGO
INT		Yellow represents an International NGO
CBO		Green represents a Community Based Organization
FBO		Red represents a Faith Based Organization
PVT		Orange represents a Private Sector Organization
OTH		Purple represents any other category of Organization

NATIONAL DATA ANALYSIS

Figure 1 - UWASNET Regional Coordination Map indicating number of CSOs operating in the respective regions

NATIONAL ANALYSIS

The following chapter outlines the National Level analysis results.

During the verification/mapping exercise, a total of 197 CSOs were visited across the country in the 10 UWASNET regions (see figure 1). Out of the 197 CSOs mapped, 112 were National NGOs (NAT), 41 International NGOs (INT), 29 Community Based Organizations (CBOs), 10 Faith-Based Organizations (FBOs), 4 Private Sector Organizations (PVT) and 1 Company Limited by Guarantee (OTH) (see figure 2).

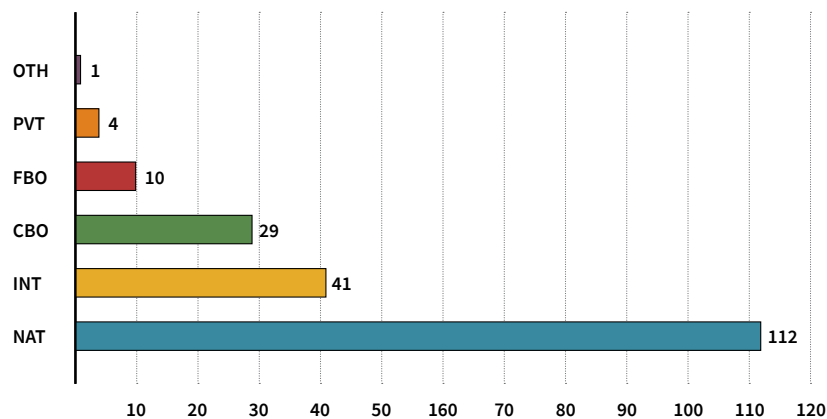

Figure 2 - Categories of the 197 CSOs visited during the exercise

For this exercise, only main offices/Headquarters were visited (see chapter 2, methodology). Central region had the highest number of CSOs visited during the exercise because the majority of CSOs have their main office/Headquarter located in Kampala. However, the vast majority of these CSOs have operations outside the capital city and in other regions of the country.

MEMBERSHIP TO UWASNET

In terms of membership to UWASNET, 139 CSOs out of the 197 subscribe to the network and 58 CSOs are not members of the network. Out of the 139 member organizations, 79 are NAT, 33 INT, 17 CBOs, 9 FBOs and 1 PVT (see figure 3).

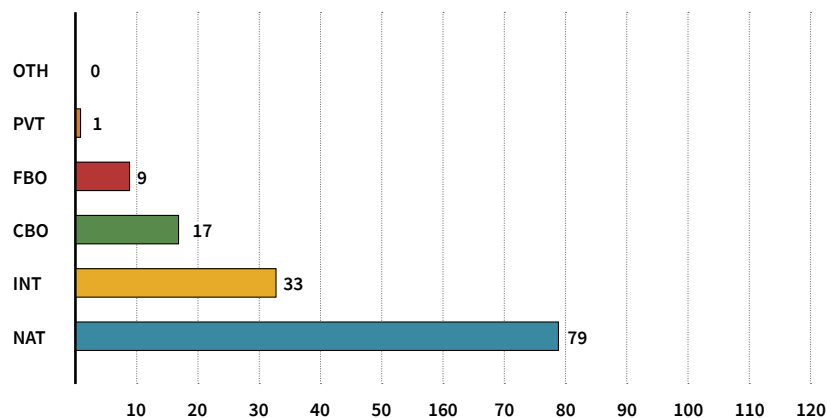

Figure 3 - Membership UWASNET: CSO Categories

THEMATIC AREAS OF OPERATION

The Thematic Areas of Operation¹ of the mapped CSOs are depicted in the graph below (see figure 4) and show strong responses in the thematic area of Rural Sanitation and Hygiene as well as Rural Water Supply, especially in comparison to Urban Sanitation and Hygiene and Urban Water Supply. Furthermore, Sanitation and Hygiene – whether rural or urban- is a stronger focal area than water supply by CSOs. Environment and Climate Change are also core thematic areas of the CSOs mapped.

Outside the Water and Environment Sector², it can be derived that CSOs are focusing on the thematic areas of Health, Agriculture and Education. Operations in the areas of Energy and Finance³ display fewer responses by CSOs who are actively engaged in the Water and Sanitation Sub-Sector.

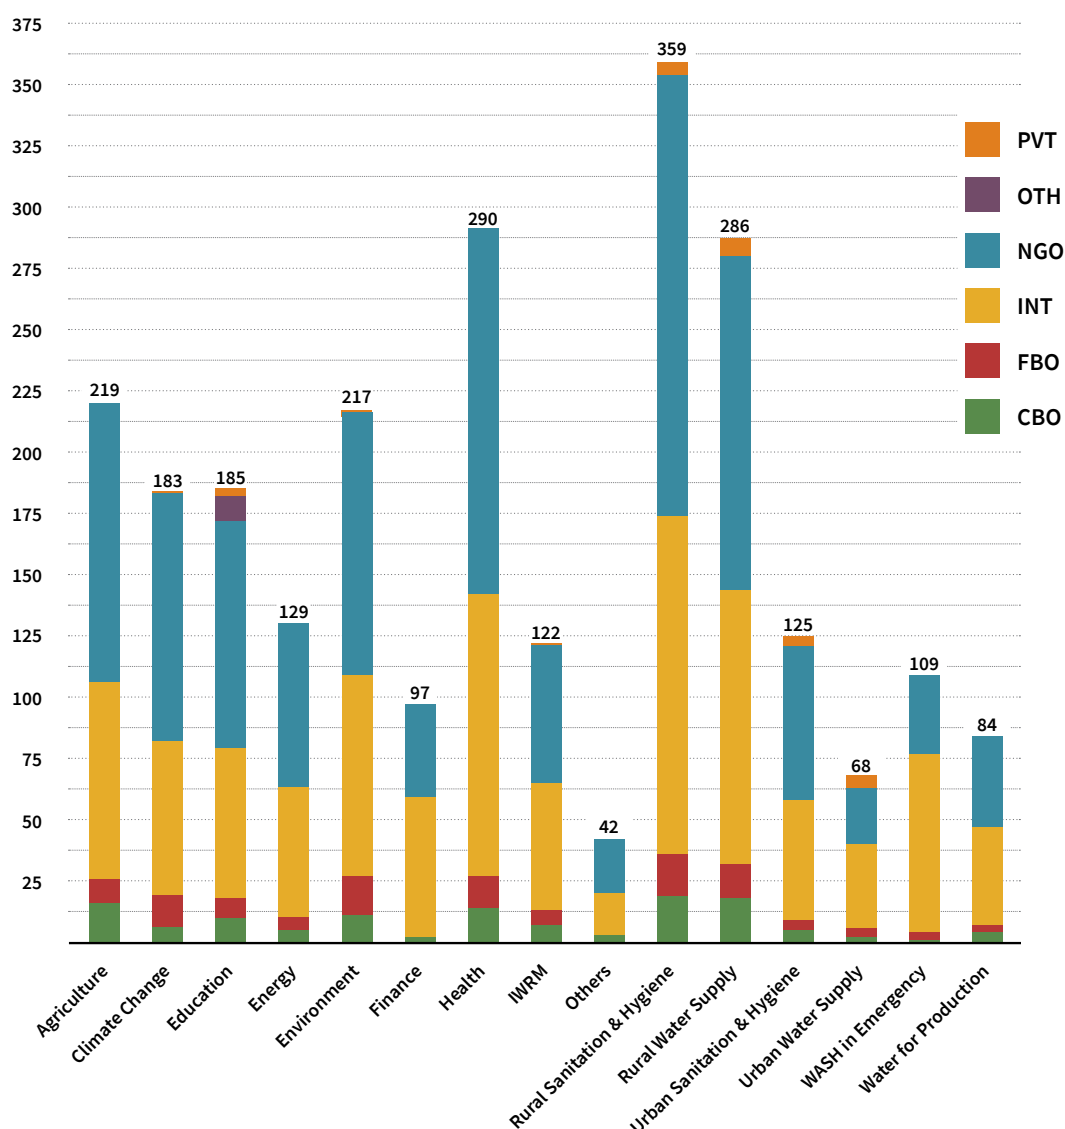

Figure 4 - CSOs' Response by Thematic Areas of Operation

¹ The numbers refer to the number of times a thematic area of operation was selected. This question was a multiple-choice question, hence CSOs were able to select more than one option here.

² As UWASNET is promoting cooperation between CSOs and line ministries as well as in line with the integrative approach of WASH, it was important to show on which other thematic areas CSOs operate in their daily activities.

³ Microfinance

Figures 5 to 9 (see below) show the Thematic Areas of Operation by CSO categories, namely CBOs, FBOS, National NGOs, International NGOs and Private Sector Organizations. Whereas the mapped CBOs (see figure 5) focus mainly on Rural Sanitation and Hygiene and Rural Water Supply, FBOs responses were towards Rural Sanitation and Hygiene and Environment (see figure 6).

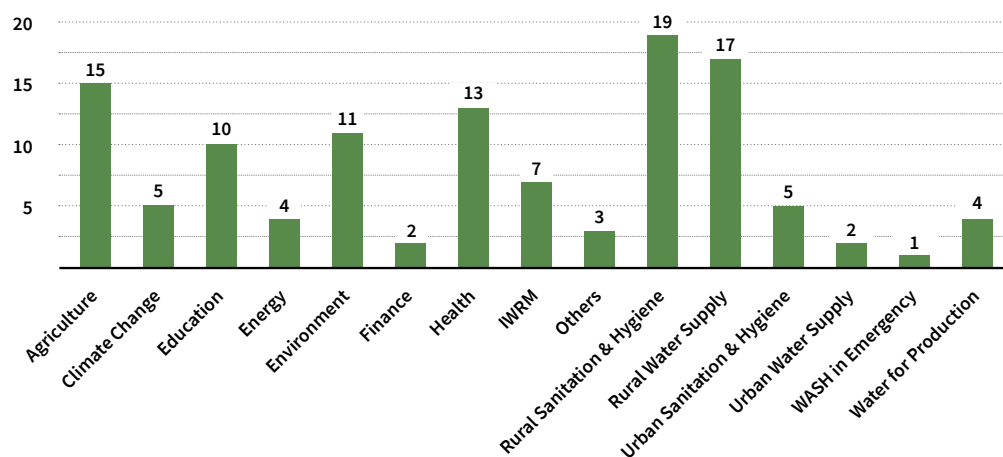

Figure 5 - CBOs Thematic Areas of Operation

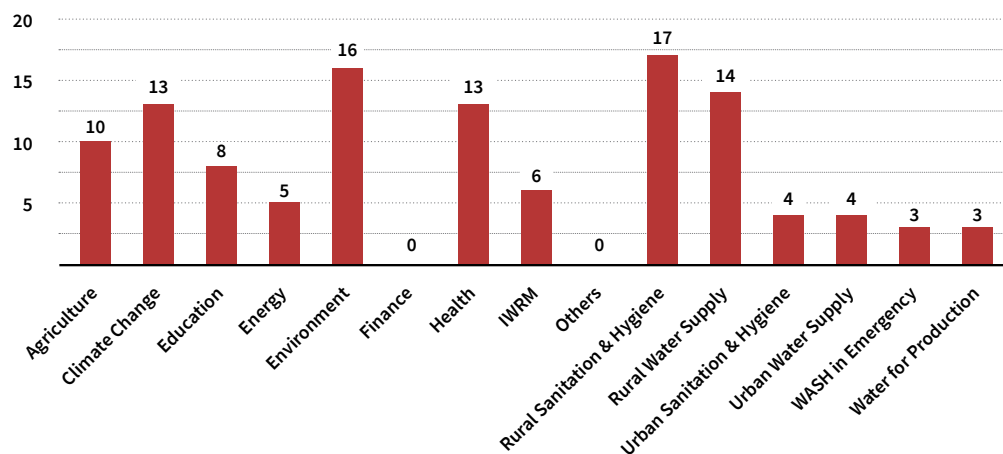

Figure 6 - FBOs Thematic Areas of Operation

Responses by mapped out National NGOs (see figure 7) during this exercise show that their main area of focus is – like CBOs and FBOs- Rural Sanitation and Hygiene. This is followed by Rural Water Supply and Health.

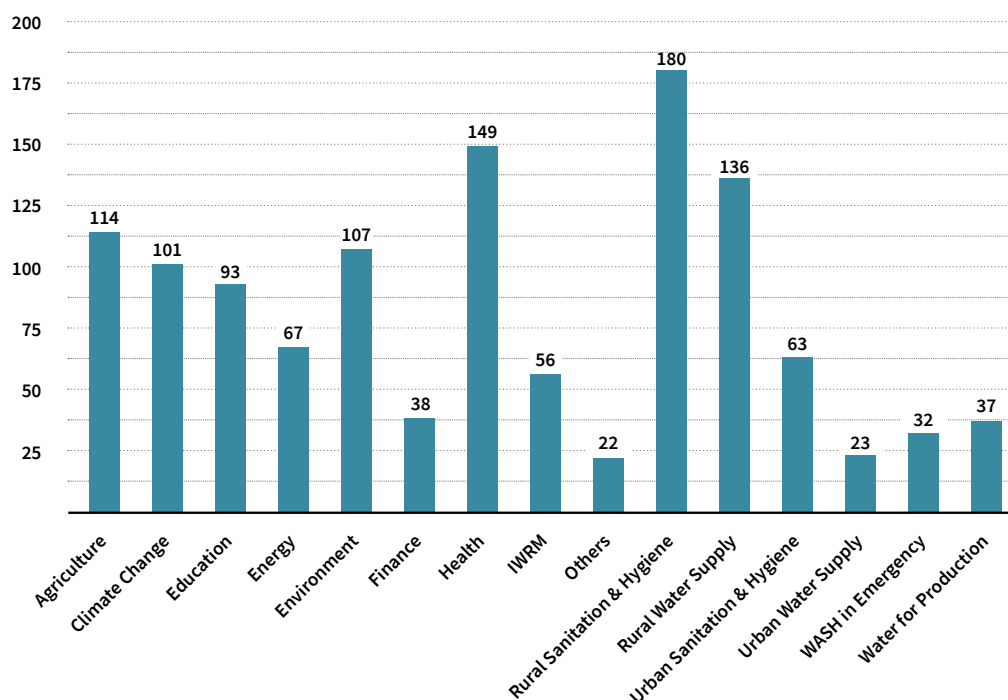

Figure 7 - National NGOs Thematic Areas of Operation

International NGOs also focus on Rural Sanitation and Hygiene, similar to the other previous CSO categories. According to responses, Health is a further major thematic area, followed by Rural Water Supply (see figure 8).

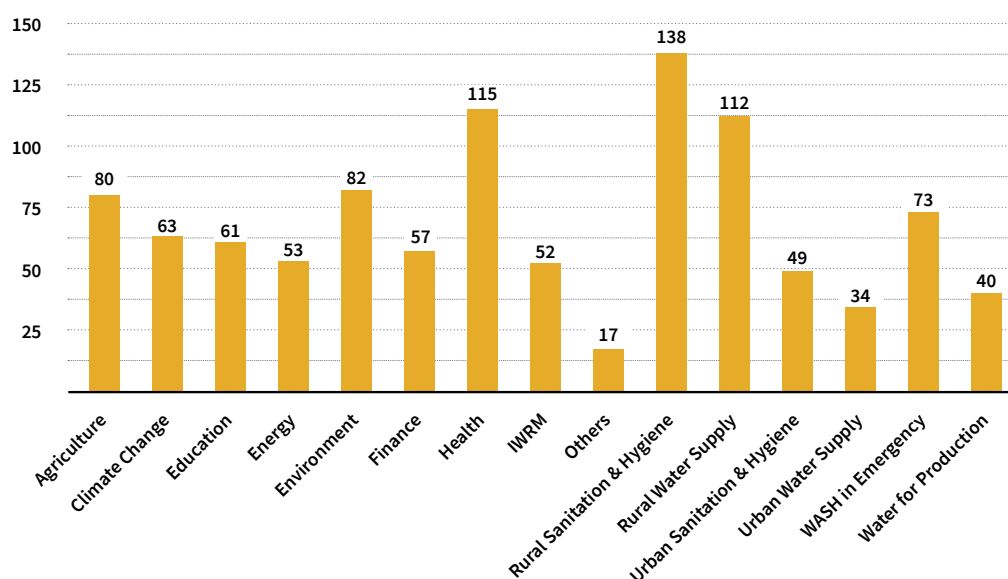

Figure 8 - International NGOs Thematic Areas of Operation

Private Sector Organizations responses during the exercise show nearly similar results on rural and urban settings as well as in the thematic areas of Sanitation and Hygiene and Water Supply. In comparison to the other categories that had their main focus on Rural Sanitation and Hygiene, Private Sector Organizations focus on Rural Water Supply. Other thematic areas that were mentioned as their thematic areas of operation include Education, Climate Change, Environment and IWRM (see figure 9).

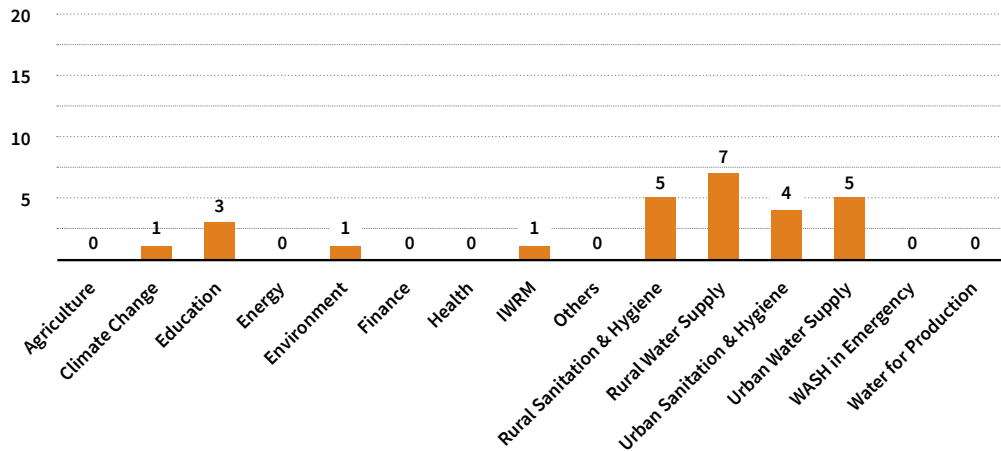

Figure 9 - Private Sector Organizations Thematic Areas of Operation

REGIONAL DATA ANALYSIS

REGIONAL ANALYSIS

During the UWASNET mapping exercise, all 10 UWASNET regions across the country were visited, namely:

- BUSOGA
- CENTRAL
- KARAMOJA
- LANGO & ACHOLI
- MID-CENTRAL
- MID-EASTERN
- RWENZORI
- SOUTH-WESTERN
- TESO
- WEST-NILE

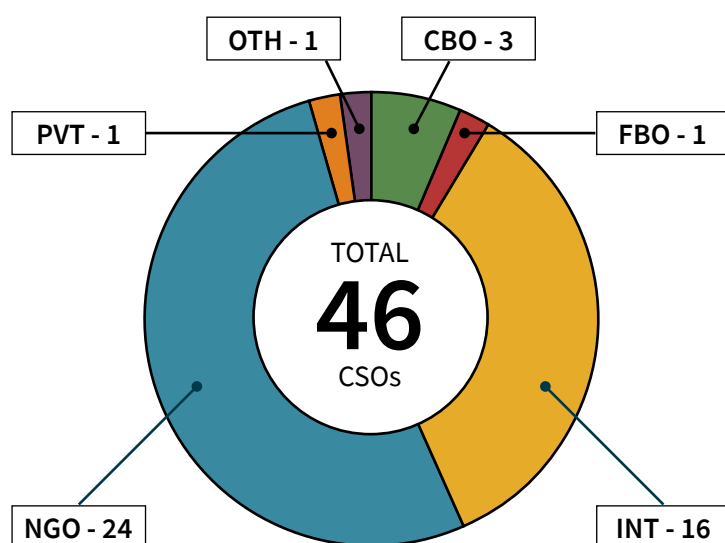

In the following section, the key results of the analysis per region are outlined. **THEMATIC AREAS OF OPERATION**

REGION BUSOGA

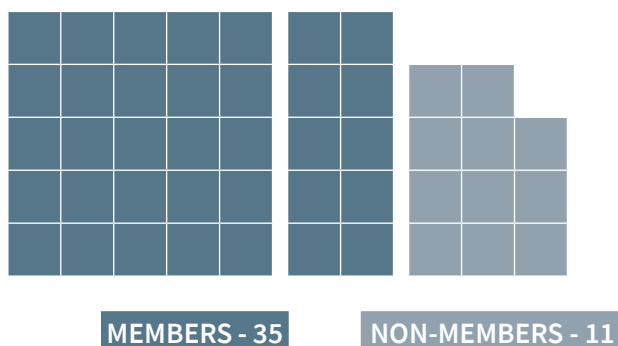

11 DISTRICTS - BUIKWE, BUVUMA, BUYENDE, IGANGA, JINJA, KALIRO, KAMULI, KAYUNGA, LUUKA, MAYUGE, NAMUTUMBA

Note: Only districts with CSO responses in Busoga Region are included. Districts with no CSO responses have been omitted from this list.

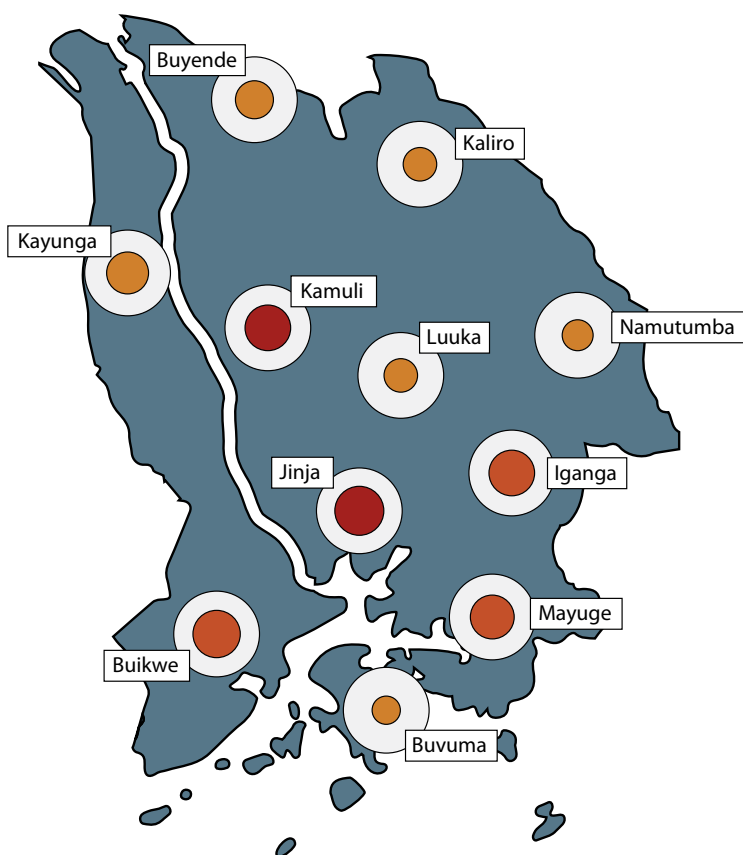

CSO NUMBERS

A total of 46 organizations are operating within the Busoga region of which 3 are CBOs, one FBO, 16 International NGOs, 24 National NGOs, 1 Company Limited by Guarantee and 1 Private Sector Organization.

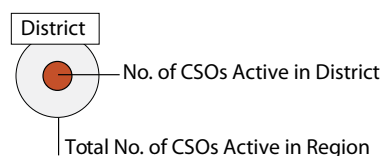

UWASNET MEMBERSHIP

Out of the 46 CSOs, 35 are registered with UWASNET whereas 11 are not members of the network.

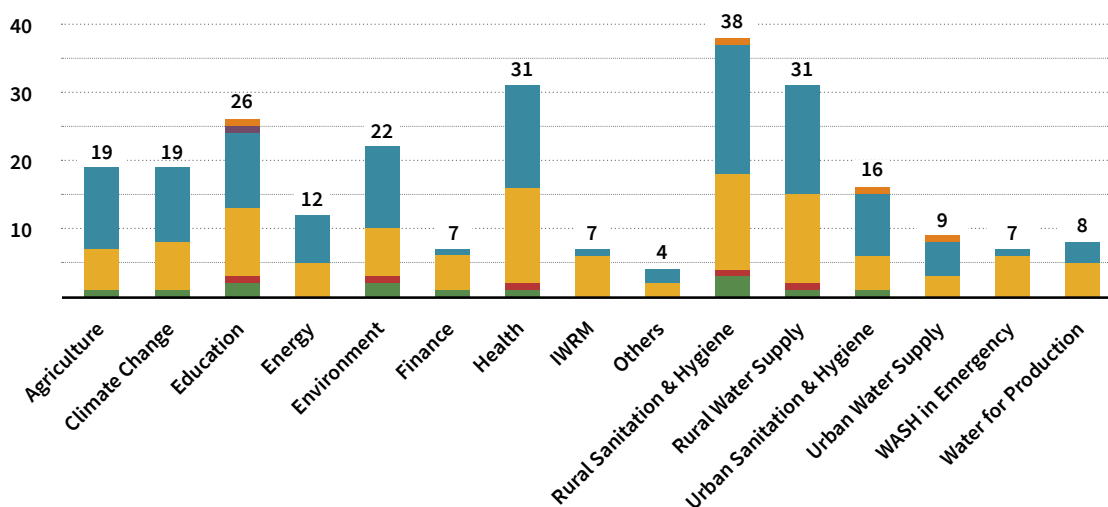

CSO CONCENTRATION

The regional map shows that CSOs are concentrated mainly around Jinja as well as Kamuli.

The Thematic Areas of Operation⁴ are depicted in the graph below.

Within WASH, Rural Sanitation and Hygiene as well as Rural Water Supply are predominant thematic areas of operation in the region of Busoga and exhibit more responses compared to Urban Sanitation and Hygiene and Urban Water Supply. Within the urban setting, Sanitation and Hygiene is stronger focused than Water Supply. Environment and Climate Change are also thematic areas that many CSOs are working on in this region, whereby IWRM is featured rather low. Outside WASH and Environment, the areas of Health, Education and Agriculture are most focused on by CSOs.

⁴ The numbers refer to the number of times a thematic area of operation was selected. This question was a multiple-choice question, hence CSOs were able to select more than one option.

REGION CENTRAL

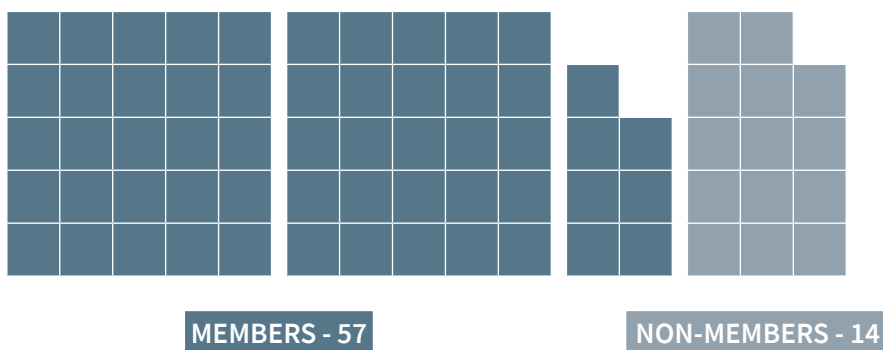

13 DISTRICTS - BULIISA, KAMPALA, KASANDA, KIBOGA, KIRYANDONGO, KYANKWANZI, LUWERO, MASINDI, MITYANA, MUKONO, NAKASEKE, NAKASONGOLA, WAKISO

Note: Only districts with CSO responses in Central Region are included. Districts with no CSO responses have been omitted from this list.

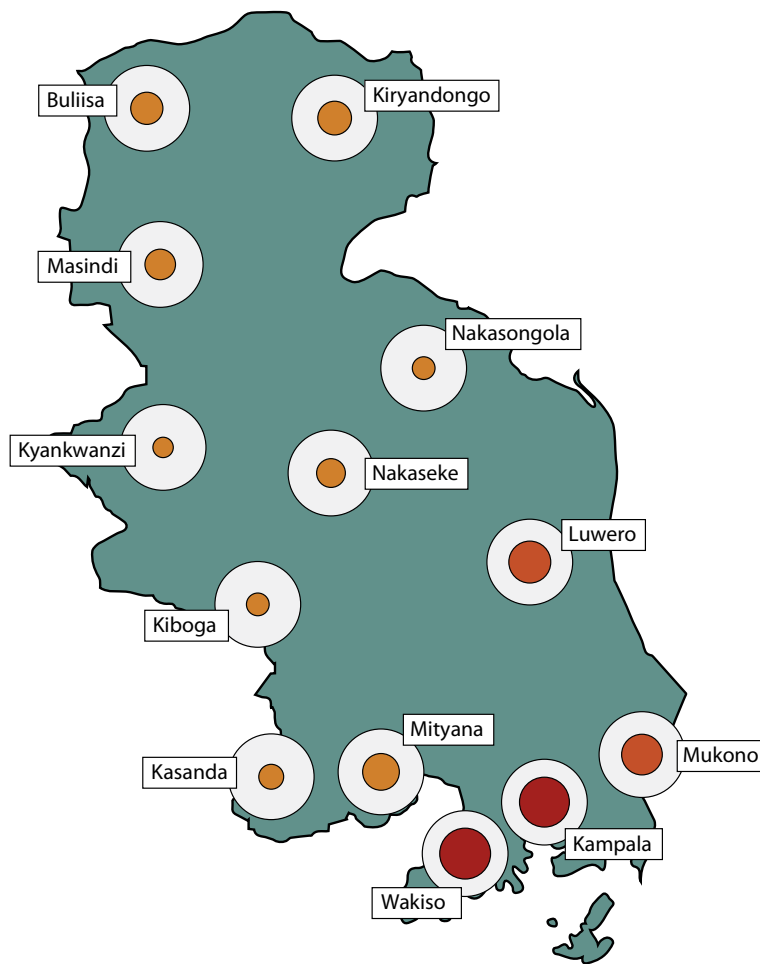

CSO NUMBERS

A total of 71 organizations are operating within the Central region of which 3 are CBOs, 3 FBOs, 30 International NGOs, 32 National NGOs and 2 Private Sector Organizations.

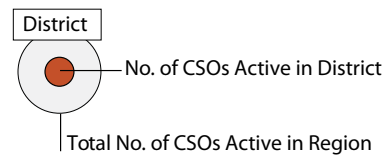

UWASNET MEMBERSHIP

Out of the 71 CSOs, 57 are registered with UWASNET whereas 14 are not members of the network.

CSO CONCENTRATION

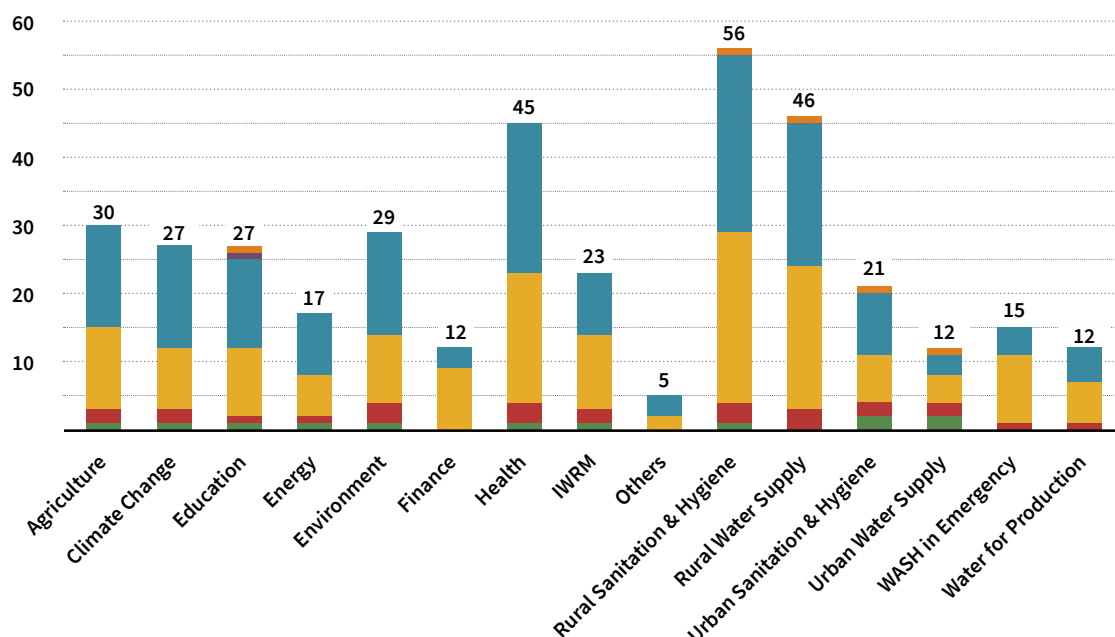

The regional map shows that CSOs are concentrated mainly around Kampala and Wakiso as well as Mukono and Luwero.

THEMATIC AREAS OF OPERATION

The Thematic Areas of Operation⁵ are depicted in the graph below.

Within WASH, Rural Sanitation and Hygiene as well as Rural Water Supply are predominant thematic areas of operation in the region. Compared to other regions, Urban Sanitation and Hygiene and Urban Water Supply -although much lesser than Sanitation and Hygiene- is more focused on in the Central region. Environment and Climate Change are also thematic areas that more CSOs are working on. Outside WASH and Environment, the areas of Health – with high discrepancy, Education and Agriculture are most focused on by CSOs.

⁵ The numbers refer to the number of times a thematic area of operation was selected. This question was a multiple-choice question, hence CSOs were able to select more than one option.

REGION LANGO & ACHOLI

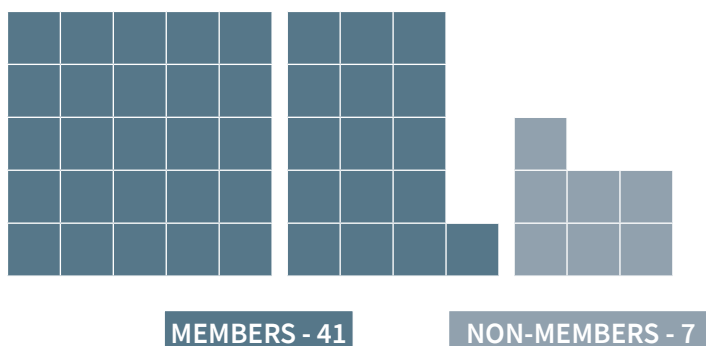

17 DISTRICTS - AGAGO, ALEBTONG, AMOLATAR, AMURU, APAC, DOKOLO, GULU, KITGUM, KOLE, KWANIA, LAMWO, LIRA, NWOYA, OMORO, OTUKE, OYAM, PADER

Note: Only districts with CSO responses in Lango & Acholi Region are included. Districts with no CSO responses have been omitted from this list.

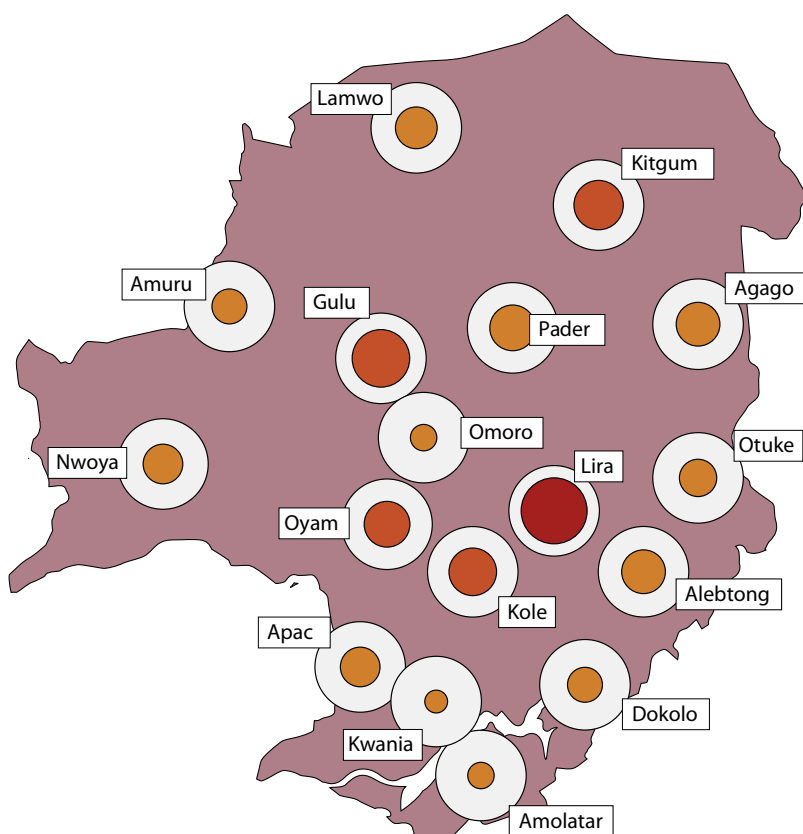

CSO NUMBERS

A total of 48 organizations are operating within the Lango & Acholi region of which 2 are CBOs, 3 FBOs, 21 International NGOs, 19 National NGOs, 1 Company Limited by Guarantee and 2 Private Sector Organizations.

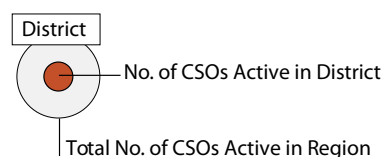

UWASNET MEMBERSHIP

Out of the 48 CSOs, 41 are registered with UWASNET whereas 7 are not members of the network.

CSO CONCENTRATION

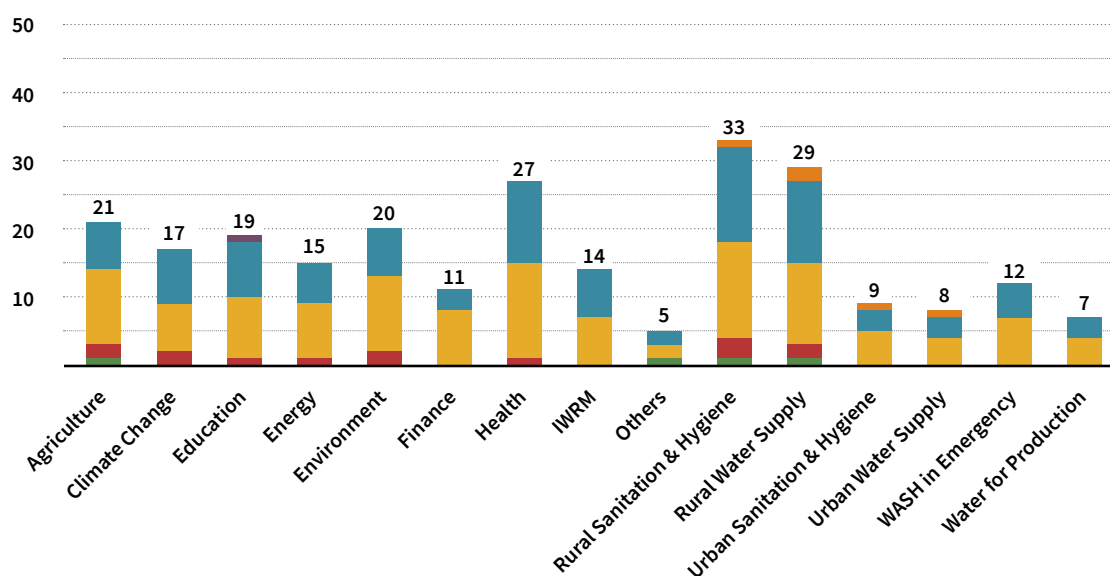

The regional map shows that CSOs are concentrated especially around Lira.

THEMATIC AREAS OF OPERATION

The Thematic Areas of Operation⁷ are depicted in the graph below.

Rural Sanitation and Hygiene as well as Rural Water Supply are predominant thematic areas of operation in the region of Lango & Acholi and exhibit higher responses compared to Urban Sanitation and Hygiene and Urban Water Supply. In this region, CSOs also focus highly on Environment and Climate Change. Outside WASH and Environment, the areas of Health, Agriculture and Education are most -almost equally- focused on by CSOs.

⁷ The numbers refer to the number of times a thematic area of operation was selected. This question was a multiple-choice question, hence CSOs were able to select more than one option.

REGION MID-CENTRAL

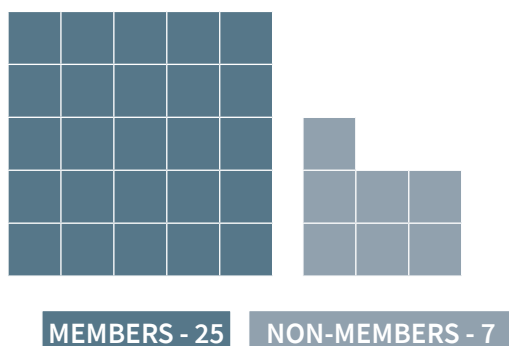

12 DISTRICTS - BUKOMANSIMBI, BUTAMBALA, GOMBA, KALANGALA, KALUNGU, KYOTERA, LWENGO, LYANTONDE, MASAKA, MPIGI, RAKAI, SSEMBABULE

Note: Only districts with CSO responses in Mid-Central Region are included. Districts with no CSO responses have been omitted from this list.

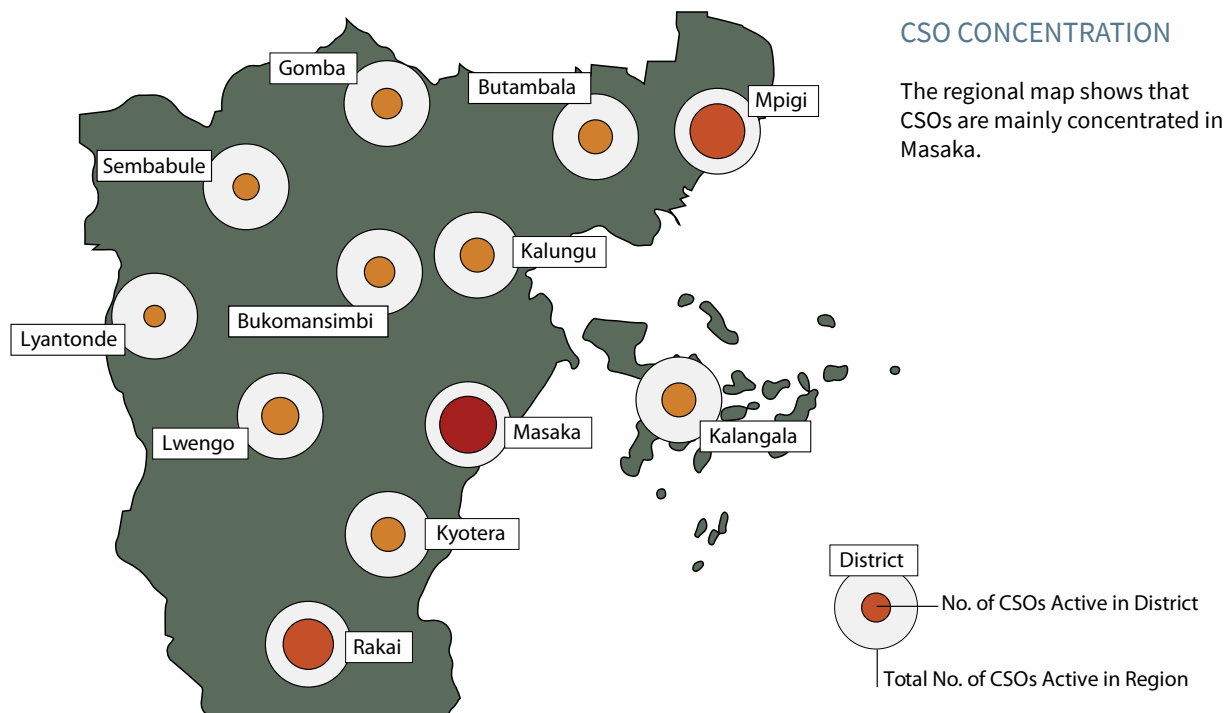

CSO NUMBERS

A total of 32 organizations are operating within the Mid-Central region of which 2 are CBOs, 2 FBOs, 7 International NGOs, 20 National NGOs and 1 Company Limited by Guarantee.

UWASNET MEMBERSHIP

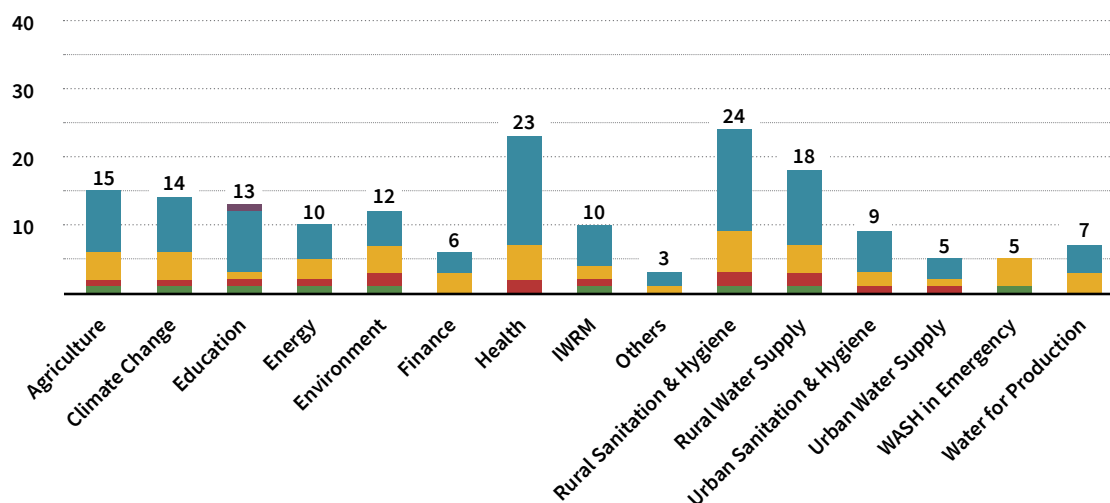

Out of the 32 CSOs, 25 are registered with UWASNET whereas 7 are not members of the network.

THEMATIC AREAS OF OPERATION

The Thematic Areas of Operation⁸ are depicted in the graph below.

Within WASH, Rural Sanitation and Hygiene as well as Rural Water Supply are predominant thematic areas of operation in the region of Mid-Central. In terms of Environment and Climate Change, Climate Change receives more attention by CSOs. Water for Production has a relatively high response rate in this region. Outside WASH and Environment, the areas of Health, Agriculture and Education are most focused on by CSOs.

⁸ The numbers refer to the number of times a thematic area of operation was selected. This question was a multiple-choice question, hence CSOs were able to select more than one option.

REGION MID-EASTERN

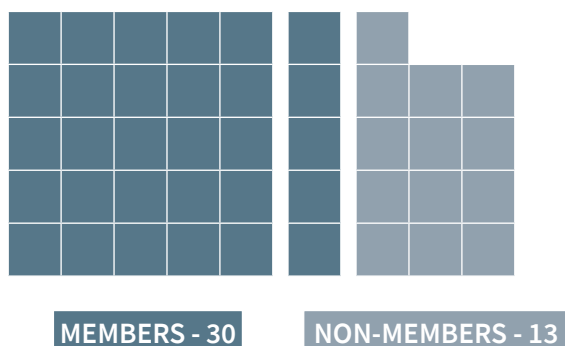

18 DISTRICTS - BUDAKA, BUDUDA, BUGIRI, BUKWO, BULAMBULI, BUSIA, BUTALEJA, BUTEBO, KAPCHORWA, KIBUKU, KWEEN, MANAFWA, MBALE, NAMAYINGO, NAMISINDWA, PALLISA, SIRONKO, TORORO

Note: Only districts with CSO responses in Mid-Eastern Region are included. Districts with no CSO responses have been omitted from this list.

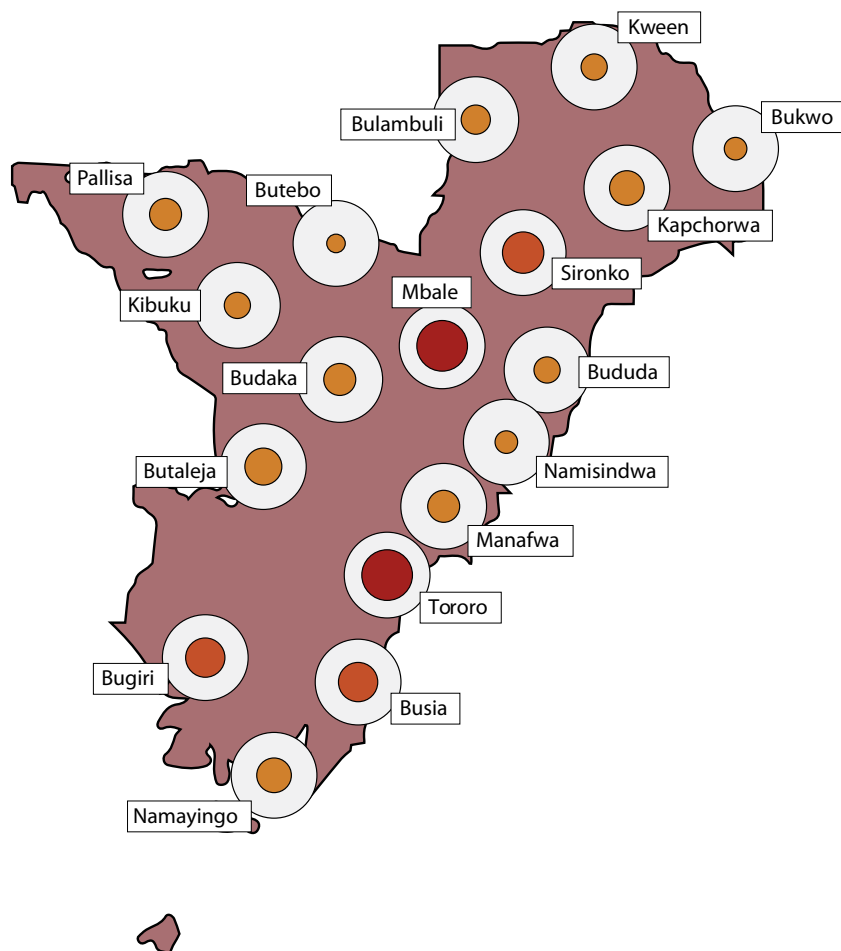

CSO NUMBERS

A total of 43 organizations are operating within the Mid-Eastern region of which 7 are CBOs, 1 FBOs, 13 International NGOs, 20 National NGOs and 1 Company Limited by Guarantee.

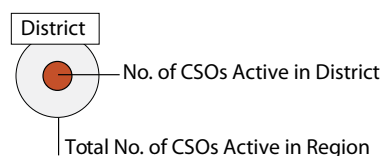

UWASNET MEMBERSHIP

Out of the 43 CSOs, 30 are registered with UWASNET whereas 13 are not members of the network.

CSO CONCENTRATION

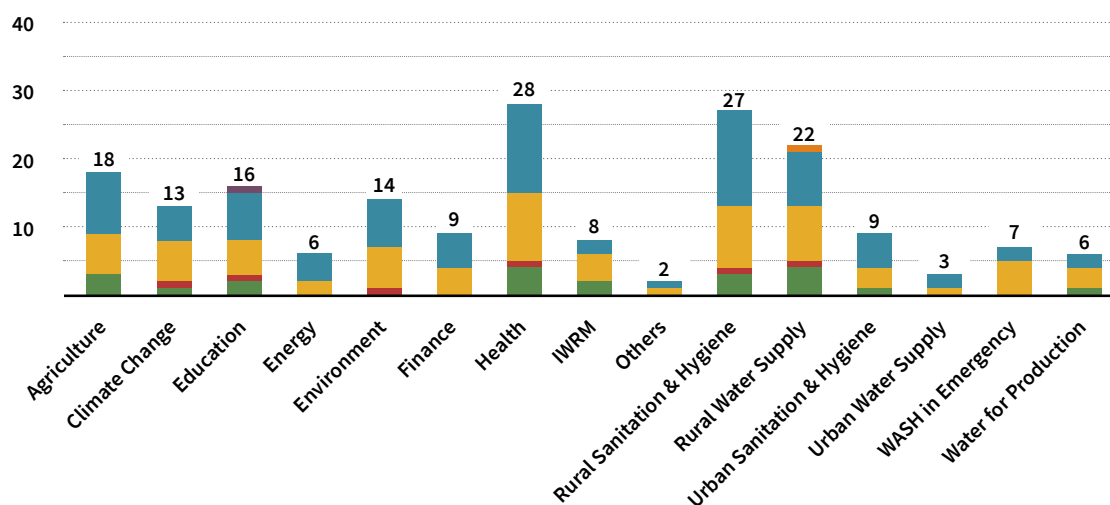

The regional map shows that CSOs are mainly concentrated in Mbale and Tororo.

THEMATIC AREAS OF OPERATION

The Thematic Areas of Operation⁹ are depicted in the graph below.

Within WASH, Rural Sanitation and Hygiene as well as Rural Water Supply are predominant thematic areas of CSOs operations in the region. Climate Change, Environment as well as IWRM and Water for Production are also relatively high- and combined show a large percentage of CSOs work in the Environment Sector. Outside WASH and Environment, the areas of Health and Education are most focused on by CSOs.

⁹ The numbers refer to the number of times a thematic area of operation was selected. This question was a multiple-choice question, hence CSOs were able to select more than one option.

REGION WEST-NILE

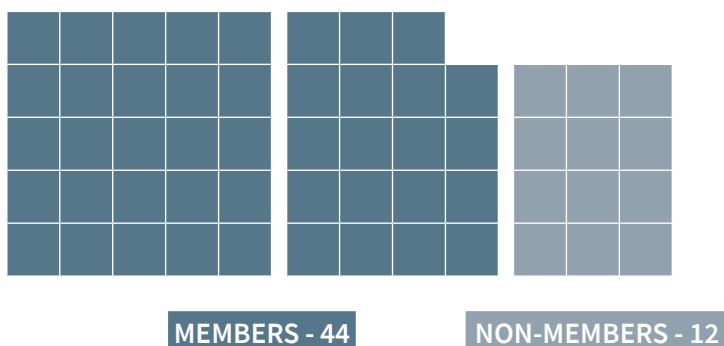

10 DISTRICTS - ADJUMANI, ARUA, KOBOKO, MADI-OKOLLO, MARACHA, MOYO, NEBBI, PAKWACH, YUMBE, ZOMBO

Note: Only districts with CSO responses in West-Nile Region are included. Districts with no CSO responses have been omitted from this list.

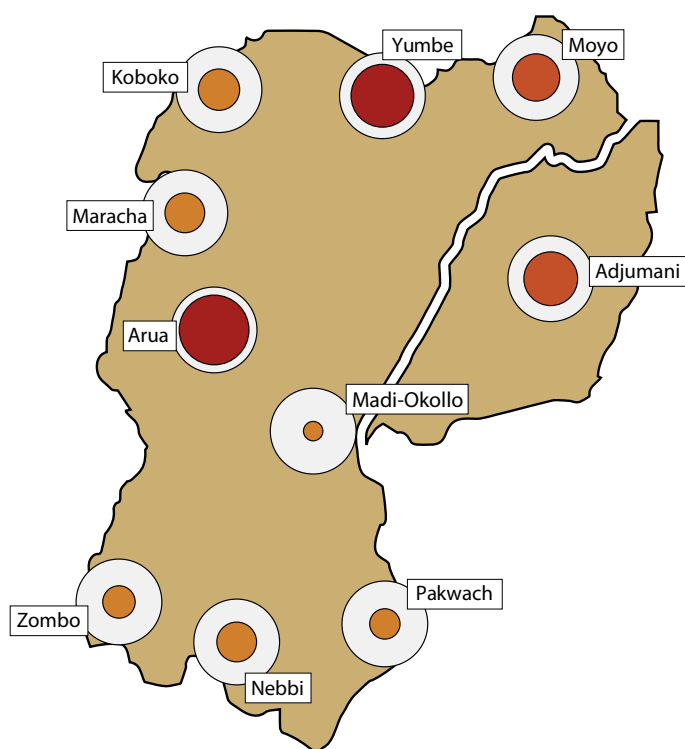

CSO NUMBERS

A total of 56 organizations are operating within the West-Nile region of which 2 are CBOs, 1 FBO, 24 International NGOs, 28 National NGOs and 1 Company Limited by Guarantee.

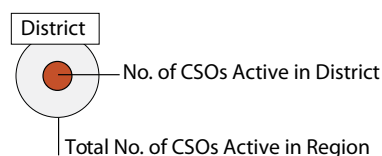

UWASNET MEMBERSHIP

Out of the 56 CSOs, 44 are registered with UWASNET whereas 12 are not members of the network.

CSO CONCENTRATION

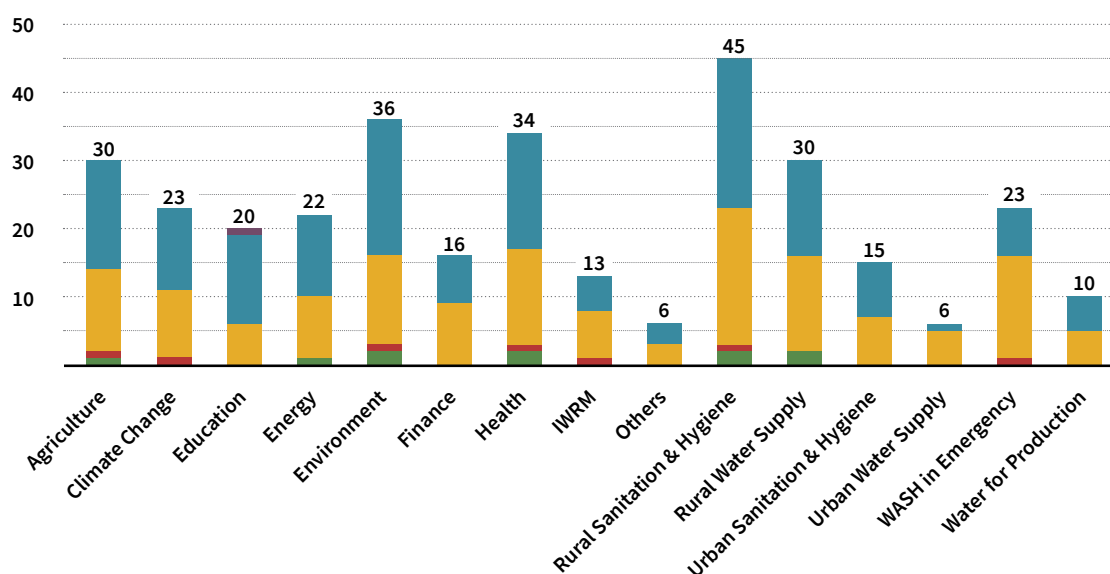

The regional map shows that CSOs are mainly concentrated in Arua and Yumbe due to the location and proximity of the refugee settlements.

THEMATIC AREAS OF OPERATION

The Thematic Areas of Operation¹³ are depicted in the graph below.

Within WASH, Rural Sanitation and Hygiene as well Environment are predominant thematic areas of operation by CSOs in the region. Compared to the other regions, CSOs active in West Nile indicate a stronger focus on Urban Sanitation and Hygiene. Due to its large amount of refugee settlements, WASH in Emergency is represented higher in CSOs operations in this region compared to the rest of the country. Outside WASH and Environment, the areas of Agriculture and Health are most focused on by CSOs.

¹³ The numbers refer to the number of times a thematic area of operation was selected. This question was a multiple-choice question, hence CSOs were able to select more than one option.

IUCN, International Union for Conservation of Nature

IRC International Water and Sanitation Center

CATEGORY: Local / National NGO
REGISTERED WITH UWASNET: Yes

“ VISION

Uniting actors behind a shared vision of WASH services that last.

“ MISSION

We believe that clean and safe water, sanitation and hygiene (WASH) services should be accessible not just for the few or for a limited time, but for everyone, forever. We know that achieving WASH services that last will not be easy, or quick, but will require all stakeholders to work together towards a common vision and be willing to learn about what works and what does not work. We believe that government leadership is essential to reaching this goal and that sector donors, international and national NGOs as well as political leaders and other stakeholders in WASH sector in Uganda, must also embrace change.

PROGRESS 2018-2019 UGANDA WASH ALLIANCE SUB-PROGRAMME

WASH SDG PROGRAMME IN UGANDA

The WASH SDG Programme in Uganda consists of the **Uganda WASH Alliance sub-programme** and **Uganda Kamuli Buyende and Nebbi sub-programme**. The Uganda WASH Alliance is in the lead in Uganda. This progress brief will focus on the Uganda WASH Alliance sub-programme in Agago District.

UGANDA WASH ALLIANCE SUB-PROGRAMME

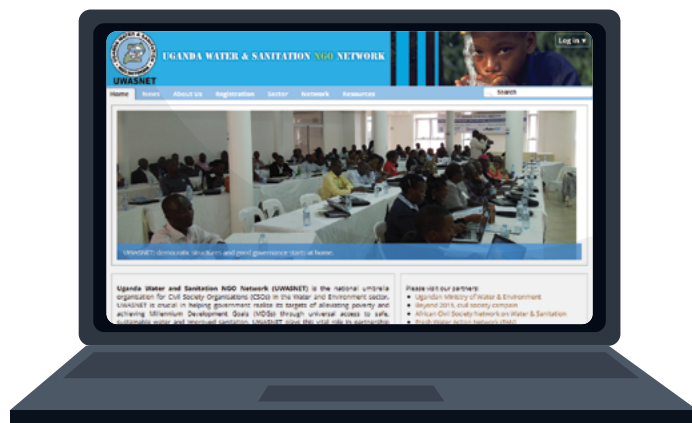

The Uganda WASH Alliance has started to implement WASH programmes in Uganda in 2011 and consists of Dutch WASH Alliance partners and Uganda WASH Alliance partners: Simavi (Lead), Amref Health Africa, Akvo, IRC, RAIN, RUAF, Practica, AFSRT, HEWASA, JESE, NETWAS and WASEU. The programme has started in July 2017 with an inception phase of one year to find out the situation on the ground. On the basis of the inception phase, a joint programme has been developed. Following the WASH SDG Programme, the Uganda WASH Alliance sub-programme will be implemented along three objectives, namely: (1) increasing demand for improved WASH facilities and practices; (2) improving the quality of service provision; and (3) improving governance of the sector. Gender and social inclusion will be an area of specific attention in each of the three strategic objectives as well as climate vulnerability and resilience.

The implementation of the sub-programme started in July 2018. After the first one year of implementation, progress can already be observed:

- Installation of the first modular water system in Omot: the sub-county donated land for the installation of the system. The system is up and running with an agreed cost of 75/- per jerrycan.
- The first rock catchment rainwater harvesting facility has been completed in Lira Kato sub-county-this is pending commissioning and training of the water management committee.
- Due to the introduction of households clustering immediately after CLTS triggering, 82% households that did not have latrines at baseline were having access to latrines for the first time as of July 2019 and an additional 55 households improved their latrines to acceptable levels. Socially marginalised members of the community particularly the elderly, widowed, orphaned and child headed families have benefited from being members of household clusters.
- Ten primary schools in Agago district were facilitated to develop cost recovery and risk assessment plans and are using the plans for advocating and lobbying district leadership, service providers and potential partners to invest in improving their WASH needs in their respective schools.
- The Uganda WASH Alliance has identified and profiled different private sector actors like masons, pit emptiers, micro finance institutions, water vendors among others. Trainings have been conducted to improve on the business development skills and linkage to finance.
- The Annotated Water Integrity Scan and Community Action Planning have been used to work on WASH Governance in Agago district.
- The WAI was present at the Uganda Water and Environment Week in March 2019 and participated in the Sanitation Week in Agago District.

For more information about the WASH SDG Programme in Uganda please visit www.wash-alliance.org or contact Rashidah Kulanyi: rashidah.kulanyi@simavi.nl

CSOs that were not listed in the Directory 2019 can get in touch with the UWASNET Secretariat for further guidance on how to be incorporated in the Online Directory.
